San Francisco, Cal.**HISDON IRON AND LOCOMOTIVE WORKS,**
San Francisco, Cal.A Model Plant is not complete without Electric Power, thus dispensing with small engines.
Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Pumps, Railways and Hoists; also, furnish light and power for a radius of from 15 to 30 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.
THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all description at short notice, and also has on hand a large stock of Wire, Candeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.

THEO. HOFFMAN, Manager.

PAY OF SAILORS**A Fight on Wages is Being Made in New York.****A Combine Against the Federal Allotment Law—Recourse in Appeal to the Government.**

NEW YORK, March 12.—The combination of sailors, boarding-house keepers and shipping masters scored its first triumph in the fight against the new Federal allotment law today, when Capt. Chapman, of the American clipper ship John R. Kelley was compelled to ship a crew of twenty-four men for \$30 a month each instead of at the old scale of \$18. The new law provides that no sailor shall make allotment for more than one month's wages. The shipping masters and boarding-house keepers advanced Jack's monthly wage of \$30 a month. Agents fought this, and the Emily F. Whitney, which sailed on March 6th for Honolulu, succeeded in obtaining a crew at the old rate.

The John R. Kelley, bound for San Francisco, was ready for sea last Friday, but the captain could not find a crew. The shipping masters combined and stood solidly against him, and today Capt. Chapman gave in, and the men were signed for the advanced scale. The one-month allotments the men were obliged to make were divided among half a dozen boarding-house keepers, James Jenks, the shipping master, who secured the crew, also coming in for a liberal share.

United States Shipping Commissioner Dickie, before whom the men were signed, said he did not think this victory of the combine would form a precedent for a permanent advancement of sailors' wages. The provisions of the new law, he said, allowed the United States Commissioner of Navigation to fix the monthly wages of the men, subject to the approval of the Secretary of the Treasury, and if the combine fighting the law persists in the advanced scale this will be done.

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany (N. Y.) dairyman called at a drug store there for a doctor to come and see his child, then very sick with croup. Not finding the doctor in, he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saying the doctor need not come, as the child was much better. The druggist, Mr. Otto Scholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. BETWEEN CALIFORNIA AND SACRAMENTO STREETS,
San Francisco, California.

The attention of those having money to invest is called to the fact that there are great opportunities to make substantial investments in San Francisco Real Estate at the present time. The condition of reality at present favors the buyer. This is the time to invest when properties can be purchased at low prices.

San Francisco has a great future; all unite on this point. It is to be the great city of the Pacific Coast. It is the gateway to the Orient, with the most port and bay in the world. Within the last few months a new city charter has been adopted by a vote of the people, which goes into effect on the first day of January next, vast improvements are in contemplation under the new charter that will enhance reality in certain portions of the city. The San Francisco Railroad Co. has purchased land on the water front for terminal purposes and will enter into competition for a share of the passenger and freight traffic, the Pacific Mail Steamship Co. has given orders to have constructed several first class steamers, the largest and most powerful ever built to run on the Panama route, so as to meet the opposition they expect from the great and wealthy Steamship Co. of Chile, South America, which has decided to extend their line of steamers to San Francisco. All this means increase of population and revival of business.

In purchasing real estate, to do well, one must know where to buy and how to buy. I offer my experience and knowledge of values of property to those who desire to purchase business properties for income or lots for residence purposes. Information cheerfully given on all matters pertaining to real estate in San Francisco. Parties coming from the islands who desire to invest are requested to call and absolute and positive bargains will be submitted to them. I will be happy to correspond with any who may wish to inquire about real estate in San Francisco. Full charge taken of property and taxes paid for absent owners.
